

Trouble Breathing?

Chronic Obstructive Pulmonary Disease (COPD) affects people who have been diagnosed with **Emphysema** or **Chronic Bronchitis** or experience the following symptoms:

- Shortness of breath
- Chronic cough
- Wheezing

If you are affected by any of these diseases or symptoms, **you may qualify** to participate in a research study of an

investigational drug for the treatment of COPD.

To qualify for this study you must:

- Be 40 to 80 years of age
- Smoked 1 pack of cigarettes per day for at least 10 years

Qualified participants will receive:

- Respiratory evaluation and instruction
- Study-related medical care
- Study medication

To get more information about taking part in this study or to register for consideration in future studies, please call TOLL FREE:
