

Is **Asthma** making it hard to catch

**Your
Breath?**

**We need to catch up
with you!**

Your help is needed with a clinical research study of marketed and investigational treatments for asthma. The study lasts up to 10 months with 7 clinic visits. All study-related medications, procedures and clinic visits are provided at no cost to participants.

Patients may be eligible to participate if they:

- have been diagnosed with asthma for 3 months or longer
- are 12 years or older
- are nonsmokers for at least one year

To find out more about this asthma study, please contact:
