

TROUBLE BREATHING?

Do You Have COPD?

COPD affects people who have been diagnosed with Emphysema or Chronic Bronchitis or experience the following symptoms:

- **Shortness of breath**
- **Chronic cough**
- **Wheezing**

If you are affected by any of these diseases or symptoms, you may qualify to participate in a medical research study of an inhalation drug for the treatment of COPD, involving 6 visits over 9 weeks.

To be eligible you must:

- Be 35 years of age or older
- Have smoked a pack per day for at least 15 years
- Have been taking a prescription drug for 3 months for your COPD

Qualified participants will receive:

- Respiratory evaluation
- Study-related medications
- An inhalation device
- At no cost to you

To get more information about taking part in this study, please call:
Del Meyer, MD, Pulmonary Clinical Investigator
